

Tooth Fairy

Where do all our lost teeth go?
That, my dear, no one really knows
The Tooth Fairy Queen never tells
How she casts her magic spells

Some say she plants them as she sings
To fertilize the toadstool rings
Perhaps they're crushed into magic sand
That helps children drift to Sleepy Land

Some say she throws them way up high
To make new stars up in the sky
So make a wish that's just for you
Her powers makes your dreams come true

The Fairy Queen is good and kind
So more & more teeth we find
When you lose another, I will call
and put it in my bag so small
I'll fly away - your tooth in hand
And place it safely in Fairy Land

Tooth Fairy

Where do all our lost teeth go?
That, my dear, no one really knows
The Tooth Fairy Queen never tells
How she casts her magic spells

Some say she plants them as she sings
To fertilize the toadstool rings
Perhaps they're crushed into magic sand
That helps children drift to Sleepy Land

Some say she throws them way up high
To make new stars up in the sky
So make a wish that's just for you
